The Vermont Program is modeled after the National Trust for Historic Preservation's "Main Street <sup>TM</sup>" 4 point approach to downtown revitalization and development. They also receive priority consideration for all state programs administering state or federal funding or other aid. Designated communities will also be eligible for technical assistance visits by the Vermont Downtown Program staff to assist in the development and sustainability of the community's comprehensive downtown revitalization program.

**Village Center Designation** - Municipalities with a confirmed planning process may request designation of the mixed use core area of their village as a "designated village center." Income-producing buildings within the village center are eligible for the same three state income tax credit programs for rehabilitation and code improvements as the Designated Downtowns (see above).
